Hey, I'm Shaik Jahangeer 🖐️

Senior Microsoft Dynamics 365 CRM Developer · 7 Years Enterprise Experience
Hyderabad, India · Available for Senior D365 / Azure roles

About Me

I'm a **Senior D365 CRM Developer** with **7+ years** building enterprise-grade CRM solutions on Microsoft Dynamics 365, Azure, and the Power Platform.

⚠️ **Note on GitHub activity:** Enterprise CRM development lives inside **client Microsoft tenants** — Dataverse environments, Azure DevOps pipelines, managed solutions — none of which can be pushed to public GitHub repos due to NDAs and client data security. My public repos here are personal projects and portfolio work only. My real output is measured in **production deployments**, not commit counts.

 Certification

PL-400

MICROSOFT CERTIFIED

Microsoft Certified: Power Platform Developer Associate

Score: 853 / 1000 · Earned: April 2026 · Expires: April 2027

 [Verify Credential](#)

 Enterprise Clients Served

Client	Project	Scale
PEI Group	Subscriber Intelligence & CRM Platform	8 specialist finance brands on one platform
MSCI	Budgeting & Forecasting CRM	Global equity index — Morgan Stanley data
Walmart US	Health & Wellness Pharmacy CRM	4,700+ stores across the US
Unilever	OPSO HD & PPM Tool	400+ brands, multi-continent
SIS K-12	School Information System	30+ countries deployed

FetchXML

What I Build

My core specialisations:

- 🔧 **C# Plugin development** — Pre-Validation, Post-Create, Async, Custom Actions
- ⚡ **Azure Functions** — .NET 8 Isolated Worker, Managed Identity, zero-secret auth
- 🔄 **CI/CD pipelines** — Azure DevOps + Power Platform Build Tools, automated D365 deployments
- 🤖 **AI integration** — Azure OpenAI GPT-4o lead scoring, Copilot Studio agents
- 📊 **Data layer** — FetchXML, OData, WebAPI, SQL Server, SSRS Reports

Public Projects

Repo	What it is
jahangeer-portfolio	My portfolio site — Next.js + Framer Motion, deployed on Vercel
Dynamics365-Apps-Samples	Extended D365 plugin samples with real enterprise patterns — Azure Functions, Power Automate, CI/CD

Enterprise client work (MSCI, Walmart, Unilever, PEI) lives in private client tenants under NDA. Architecture details and outcomes documented at [my portfolio](#).

Currently

- 🎯 Pursuing **AI-102** (Azure AI Engineer Associate)
- 🏗️ Building **Revenue Intelligence Platform** — full-stack CRM + AI (D365 + Azure OpenAI + Next.js)
- 💼 **Open to Senior D365 / Azure roles** — available immediately

▲ VIEW FULL PORTFOLIO →

Built with 7 years of enterprise CRM scars and zero tolerance for manual lead triage.
